Centre for Medieval Studies Level 1 Latin Word List

by Morris Tichenor, University of Toronto

This word list was compiled from "A Glossary of Centre for Medieval Studies MA/Level 1 Latin Examinations 1990-2013," and includes only those words which are recommended for memorization. **Bold** definition(s) denote(s) actual meanings found in a previous exam and should be memorized first; additional definitions found in *Lewis & Short* are listed after a semicolon—an exception is made when bold definitions are less common: these are placed after the semicolon. As an aid to vocabulary building, words are clustered around roots as defined in the *Oxford Latin Dictionary*. In very few instances words were added which *have not* appeared in previous examinations; these words are for the most part root-forms of words which *have* previously appeared. Additionally, some words have been listed according to theme, e.g. animals, body parts, colours, since those rarely share roots with other words. These thematic lists appear after the general vocabulary. All words are listed according to the spellings found, if present, in *Lewis & Short* with the exception of the letter 'j' which has been normalized to 'i' in all cases; the letter 'u' is distinguished between its vowel 'u' and consonant 'v' forms. Common medieval spelling variations, such as collapsed diphthongs and assibillations, are not noted. Regularly formed comparative and superlative forms are not noted except to highlight unique meanings.

List of abbreviations:

abl	ablative	gen	genitive	n	neuter
acc	accusative	impers	impersonal	пит	numeral
adj	adjective	indec	indeclinable	prep	preposition
